Story

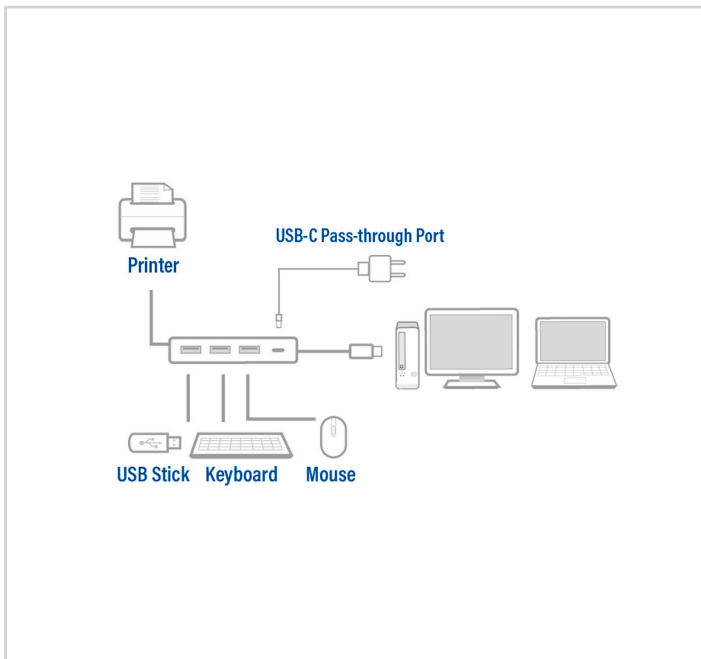

Connect up to four USB-A devices to a notebook with USB-C via the AC7053 USB-C 3.2 Gen1 Hub. The SuperSpeed USB-C Hub has a Power Delivery Pass-Through port (max. 60W). The AC7053 has a compact solid aluminium housing.

Connect USB-A peripherals to a notebook with USB-C

Use the AC7053 USB-C SuperSpeed Hub to connect USB-A peripherals e.g. a keyboard, mouse and USB stick to a notebook with USB-C. Thanks to USB-C 3.2 Gen1, the data transfer speed is 5Gbit/s.

USB-C Power Delivery Pass-Through port 60W

The USB-C Pass-Through port supports power delivery 60W. The notebook is always charged with the right amount of power thanks to the pre-defined Power Delivery profiles. The charger communicates with the hub to negotiate the most effective charging profile.
