Story

The AC7042 USB-C 3.2 Gen1 4K Multiport Dock turns a notebook into a complete work station by connecting only one flexible USB-C cable. This multiport dock extends the notebook with a 4K monitor via HDMI, Gigabit Ethernet connection, three USB-A ports and a USB-C pass-through charging port with power delivery (max. 60W) support. This solid aluminium multiport dock is USB powered, no external power supply is needed. Please make sure the USB-C port of the notebook supports DP Alt Mode.

Turn a notebook into a work station with only one foldable USB-C cable

Connect one 4K@30Hz monitor to the notebook via the HDMI port of the AC7042. The Multiport Dock has a Gigabit LAN networking port and extends the notebook with three additional USB-A 3.2 Gen1 ports. The flexible cable can be stored into the dock.

Supports 60W Power Delivery Pass-Through

Is the notebook being charged via the USB-C port? The AC7042 supports Power Delivery Pass-Through 60W. Once connected to the multiport dock, the notebook gets its power via the USB-C PD Pass-Through port. The dock is a plug and play device, only a USB-C port with DisplayPort Alternate Mode (DP Alt Mode) is needed.
