## Story

Connect 3 USB-A devices to your laptop with USB-C with the solid aluminium AC7055 3-Port USB-C 3.2 Gen1 (USB 3.0) Hub. The AC7055 is equipped with a Gigabit ethernet port to provide a physical Internet/network connection to your notebook/ultrabook. The Hub is a plug and play device. No additional power supply is needed.

### Connect USB-A peripherals to your notebook with USB-C

Does your notebook only have USB-C ports? Connect the AC7055 to the notebook and use your USB-A flash drive, external HDD or other USB-A peripherals on your notebook.

### Gigabit ethernet port

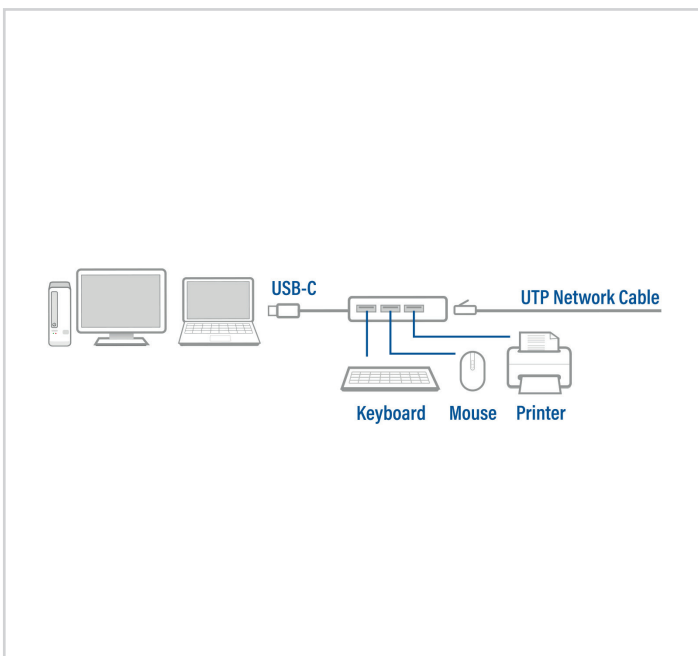

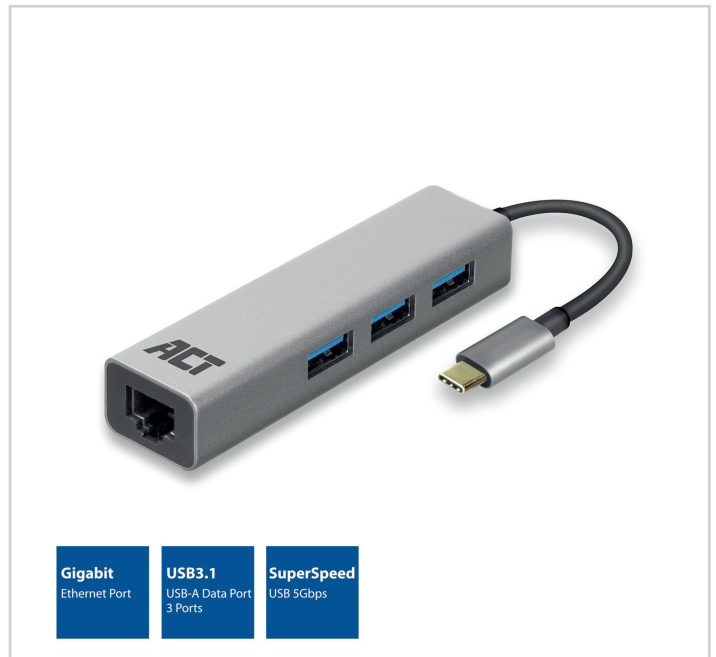

The AC7055 offers a Gigabit ethernet port to extend your notebook/ultrabook with a physical Internet/network connection.

---->

<----

**Plug and play, no additional power supply needed**

The AC7055 is a plug and play device and is powered by the USB port of the notebook/ultrabook. No additional power supply is needed. The 3-Port Hub is backwards compatible with USB 2.0 specifications.
